### 2019 GCSE Results

**Toynbee celebrating another excellent set of results.**

Once again, we are very proud of all our students, who have achieved another excellent set of results. Both pupils and staff have risen to the challenge of the more difficult GCSEs and turned in some exceptional performances.

English and Maths results continue to be of a very high standard. Provisional results show over 70% and 80% of pupils achieved a grade 9 to 4 in English and Maths respectively; with 70% achieving a grade 9 to 4 in both subjects. There has also been a very strong performance in Science with 71% of pupils achieving two grade 4s or higher in the subject. The performance of the triple sciences was some of the best in the school with over 35% of pupils achieving grade 9 to 7 in Biology, Chemistry and Physics.

The performance of the core subjects combined with very strong attainment in the Humanities and Modern Foreign Languages has seen the school achieve a very strong figure of 21% this year for the more rigorous Ebacc, where a grade 5+ is required in all elements. What was pleasing about the results this year was that attainment was strong across the much of the curriculum with a large numbers of subjects achieving high attainment figures. Particular highlights include PE, Religious Studies, Geography, History, Music, French and Drama.

The results are a testament to the hard work of the pupils and staff who have been relentless in their pursuit of the Toynbee Motto, "Personal Best". Once again, congratulations to the pupils for all their hard work and good luck to them in their future careers.
